

Health and Safety for all of us is our Priority

19 March 2020

Cornwall Freightliner would like to reassure its customers, employees and their families by informing them that health and safety of all of us is our priority during this special period linked to COVID-19, while maintaining our operations.

Know that exceptional hygiene and prevention measures are taken in our dealership and that a management committee has been set up in order to stay abreast of developments in the situation and to ensure the application of the recommendations made by the Government of Ontario and Health Canada within the company.

Preventive measures in place at our dealership to limit the spread:

- Special hygienic procedures are applied by our employees and the housekeeping company (frequent disinfection of shared surfaces and used devices, display of reminders, etc.)
- A distance of one meter is maintained between the individuals.
- Our employees are well aware of the risks and symptoms of the virus.
- Employees who have traveled abroad must work from home for a period of 14 days.

We will do everything in our power to maintain the same level of service that you are used to despite the situation. Please note that the opening hours of all our departments remain unchanged.

To ensure the promise of prevention made herein, we ask you to respect certain hygiene measures when you visit our dealerships:

- Hand disinfection at the entrance and exit of the establishment (disinfectant solution distributors available)
- Respect the established safe distance of one (1) meter between you and others.
- If you have traveled or have symptoms, we ask that you not to visit our dealership.

If you have any questions or concerns, please do not hesitate to contact us.
